HELPS PROMOTE PLANT GROWTH AND NUTRIENTS UPTAKE

Mycosmart™

# ENDO 4™

GRANULAR

ENDO MYCORRHIZAE MIX

## DIRECTIONS FOR USE

We recommend applying MycoSmart Endo 4 Granular mix when transplanting, directly in contact with roots or at the bottom and sides of transplant hole. For potted plants, transplants or cuttings, apply 1 to 2 tablespoons of Endo 4 per gallon-size pot.

Agriculture: Endo 4 Granular can be used in rows or side dressed before or during planting at 2 pounds per acre.

Growing medium (Cubic Yard) - Incorporate our Granular thoroughly 3-7 lbs into potting soil mix or propagation, growing medium before filling trays.

Field Crops: Corn, soybeans, cereals, flax - Apply 4-6 lbs per acre. Apply through seed drill, side dress or broadcast and disc into root zone prior to sowing.

Forage and legume crops: Use our Granular with seed at 5 lb / acre.

EXPIRATION DATE:

Lot. No.

## STORAGE AND HANDLING

Store in a cool dry place (36 °F to 68 °F), do not freeze.

Avoid inhalation or ingestion. Keep out of reach of children. Best use before the expiration date. If irritation or other symptoms occurs, seek medical attention.
